

November 23, 2020

Dear GMHA Participants,

As you are certainly aware, COVID cases have been significantly increasing in our area. In addition to Gov. DeWine expressing concerns over friends and family getting together, he, along with the Geauga County Health District, have requested individuals work remotely if possible. In honor of that request, GMHA has once again split the Office into two teams. Although we may be working remotely part of the week, we are still here to assist you. You can still contact your program manager by phone or email, and they will get back with you as quickly as possible. Drop boxes are available as well.

In addition, all *non-emergency* work orders, other than those pertaining to the exterior of your unit, have once again been put on hold during this time and will be addressed at a later date. Please continue to call ext. 108 for any emergency work orders.

While the office will be closed to visitors, you may still reach your program manager through email or phone. You may also leave messages at 440-286-7413, ext. 100 or via email to gmha042@geaugamha.org.

If you know of someone in need of housing assistance, applications for housing assistance are still available in our vestibule 24/7. We are still processing them and doing our best to assist you and others in need.

Thank you for your continued patience and understanding!

Sincerely,

Dawn Farrell
Executive Director
